[about the conference]

Eindhoven: The Heart of Innovation and Design

Eindhoven is the beating heart of Brainport Eindhoven, a leading innovative ecosystem in the Netherlands. This area is known for its strong high-tech manufacturing industry, unique design sector and close collaboration model. Here, companies, educational institutions and governments work together every day on chain collaborations, open innovation and strategic alliances.
Big names such as Philips, ASML, DAF, NXP and Signify, together with Eindhoven University of Technology and the Design Academy, make Eindhoven a global center for technology and creativity. More than 300 companies on the High-Tech Campus Eindhoven attract talent from all over the world, creating a lively and multicultural atmosphere in the city.

Eindhoven is a hub of groundbreaking innovations and creative ideas, where technology and design converge and reinforce each other, making it a city where the future is already taking shape. With green oases, vibrant coffee spots, and comfortable hotels, as well as leading museums and cutting-edge restaurants, Eindhoven truly has it all.
